Fund of Funds Custody Solution

FundBank provides clients with a comprehensive fund of funds custody solution through a global network of relationships with top-tier transfer agents and fund administrators.

By separating the fund administration and fund custody function we help clients to reduce operational risk and build a more attractive fund offering for prospective investors.

FundBank is able to help clients reduce the administrative burden by providing a full-service solution that includes:

- expedited subscription processing (via FundBank's established administrator network)
- custody of underlying assets
- trade execution subscriptions/redemptions
- completion of any related documentation required by the fund administrator
- processing of any corporate action event
- processing the crystallization of equalization shares.

Executing Broker

Our integrated trading solution helps managers alleviate cost pressure by outsourcing the trade lifecycle. It is an opportunity to meaningfully lower costs, reduce risk, manage regulatory compliance and enhance transparency and operational efficiency.

Through our network of broker relationships, FundBank's team of experienced traders offer timely execution in most major markets and across multiple asset classes, including equities, fixed income, alternative investments and money market instruments.

By utilizing our executing broker services, managers can focus on their core service, managing their portfolios and generating alpha.

Cash Management Services

At FundBank, we offer our clients access to a wide range of money market funds and treasury products that are available globally.

Our cash management service is designed to help clients maximize their returns by earning yields on their idle cash. Our cash management solutions include:

Money market funds (BNY liquidity solutions)

Reverse repurchase agreements

FundBank's cash management program is a self-directed service and our team can provide clients with a list of money market funds as well as fact sheets, offering documents and other information required during the operational due diligence stage.

Trust Management and Trustee Services

At FundBank, we understand that institutional clients require personalized trustee services and governance that meet their specific needs.

That's why we provide a suite of services that are tailored to the unique requirements of our clients. Our team of industry professionals gives you the personal attention to ensure that the terms of the trust meet your requirements, and that the administration of the trust is conducted at the highest industry standards.

Our core services include:

Acting as share trustee using either a STAR trust or charitable trust structure

Acting as enforcer to STAR trusts

Serving as trustee on private wealth trusts and as a director on Private Trust Companies that in turn serve as trustee to charitable/discretionary trusts

Serving as trustee to unit trusts

Solutions for Fund Administrators

With a wealth of experience within the funds industry, FundBank services some of the largest institutions and has done so for many years.

Today, with limited options to open bank accounts, FundBank is able to provide fund administrators with a robust yet best-in-class solution to support their clients' needs. We partner with fund administrators to open and maintain accounts to process capital activity and meet operational expenses, eliminating the difficulties associated with accessing institutional bank accounts.

About us

Above and beyond industry standards

Onboarding with ease

At FundBank, we pride ourselves on being at the forefront of innovation in the banking industry.

Our fully-digitized onboarding experience is one such innovation, allowing our clients to open and manage their accounts in a way that is both efficient and convenient.

By utilizing our customized online platform, clients can complete the onboarding process quickly and securely, without the need for face-to-face interaction or paper documentation. Our platform offers enhanced security features, ensuring that our clients' information is always safe and secure. Contact us today to learn more about how we can help you streamline your banking experience.

Digitization beyond anticipation

In today's digital age, our technology-focused, industry-leading digital platforms will streamline the onboarding process, reducing time and costs while increasing accuracy. Our digital onboarding also offers enhanced security, providing a win-win solution for fund administrators and their clients.

Backed by trusted financial institutions

Our trust structure allows our client funds and assets to be maintained solely with our correspondent banks, minimizing counterparty risk.

Client assets are completely segregated from the assets of FundBank, minimizing our clients' counterparty exposure.

Our correspondent relationships include:

- Bank of New York Mellon – bank accounts
- State Street – custody accounts.

Our clients are provided with direct access to the FundBank Online Banking Portal which provides 24/7 access to account activity and payment execution from anywhere in the world.

Security and risk

Our risk systems and foundation for our banking technology have been built on the feedback from managers and administrators and are a testament to our understanding of their business and fund structures.

In a world where security is paramount, FundBank is able to mitigate regulatory risk by utilizing comprehensive systems and controls, developed to exceed the requirements of global regulatory bodies and industry best practices. Our approach to client acceptance is risk based and as a result of our technology-based approach to onboarding and due diligence, we are able to assess risk swiftly and comprehensively. With the necessary risk controls and technology in place, clients can be assured that we are able to minimize risk to both them and FundBank.
